

ISATIS

The household and hotel detergent industry

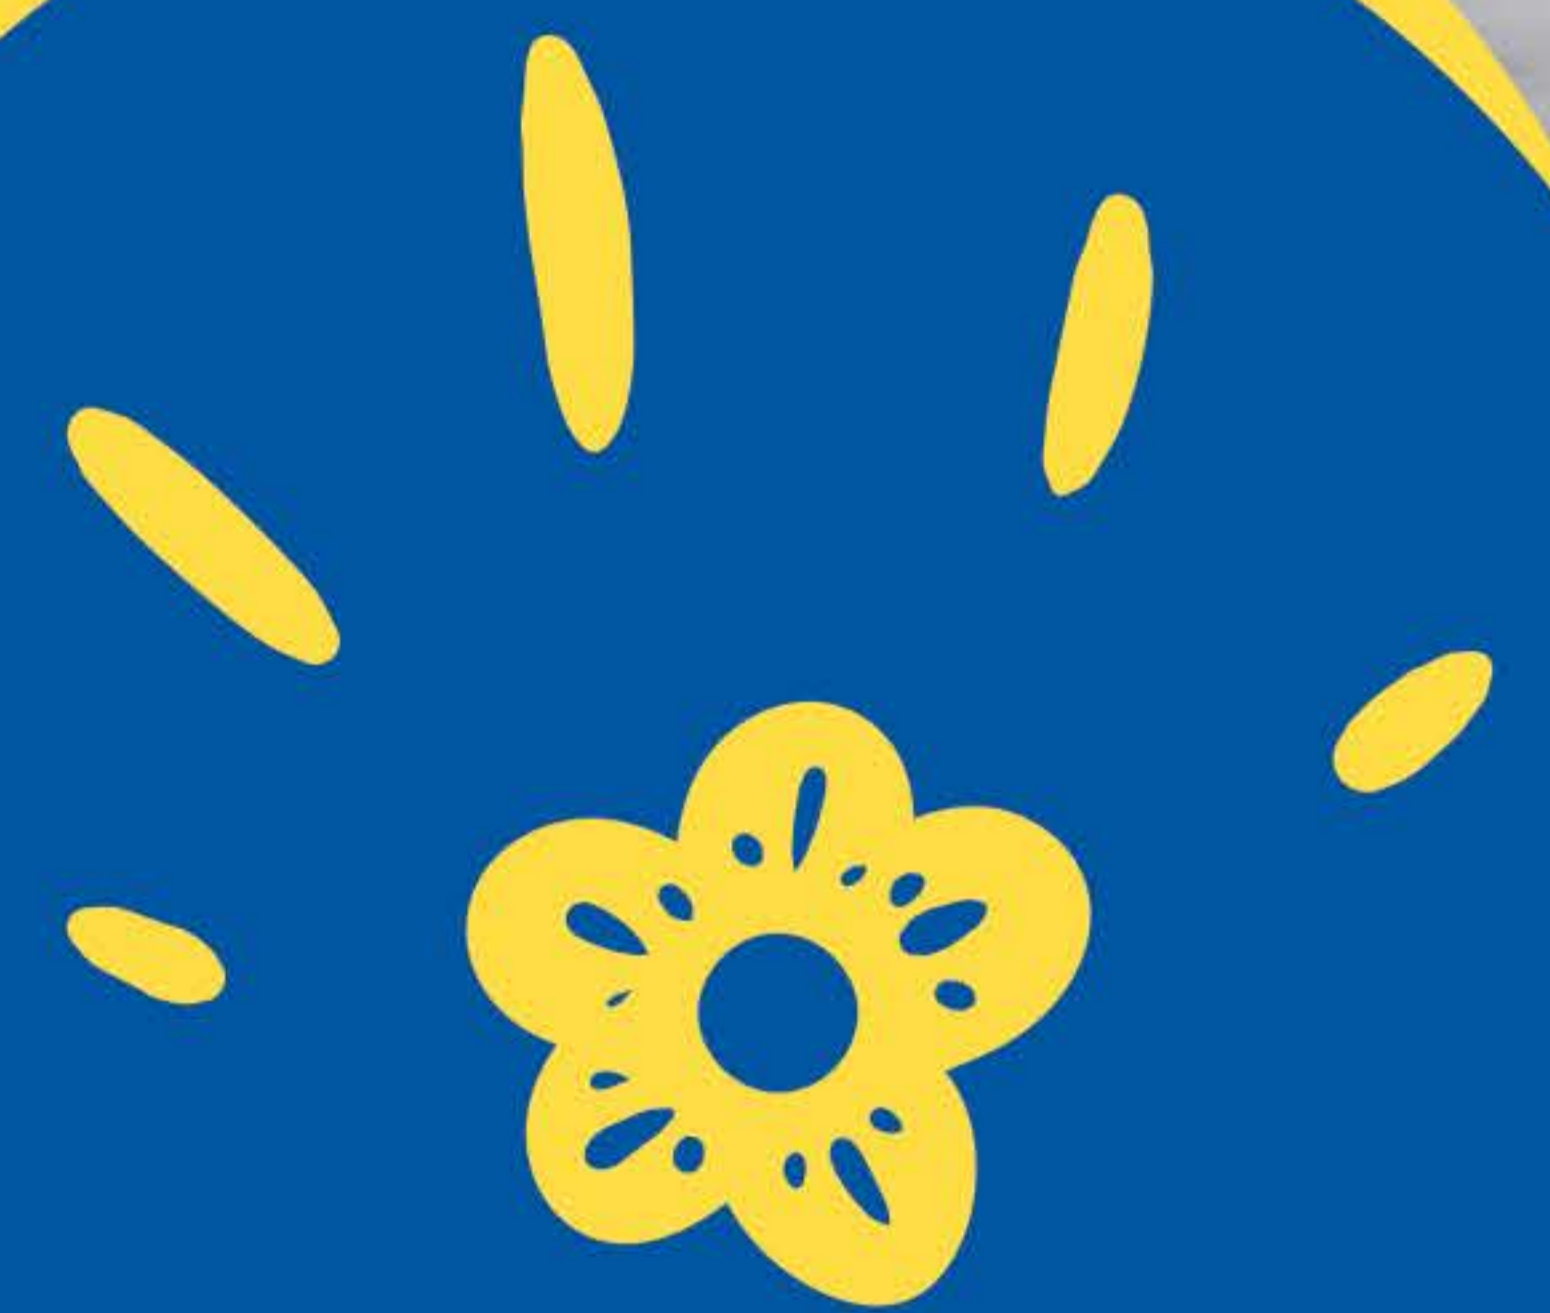

ISATIS

Isatis is a reliable brand in the household and hotel detergent industry. In today's rapidly developing world, household and hotel detergent products are necessary to maintain health and safety in the living and working environment. These products are widely used in reducing infectious diseases and eliminating germs and bacteria with their disinfectant power.

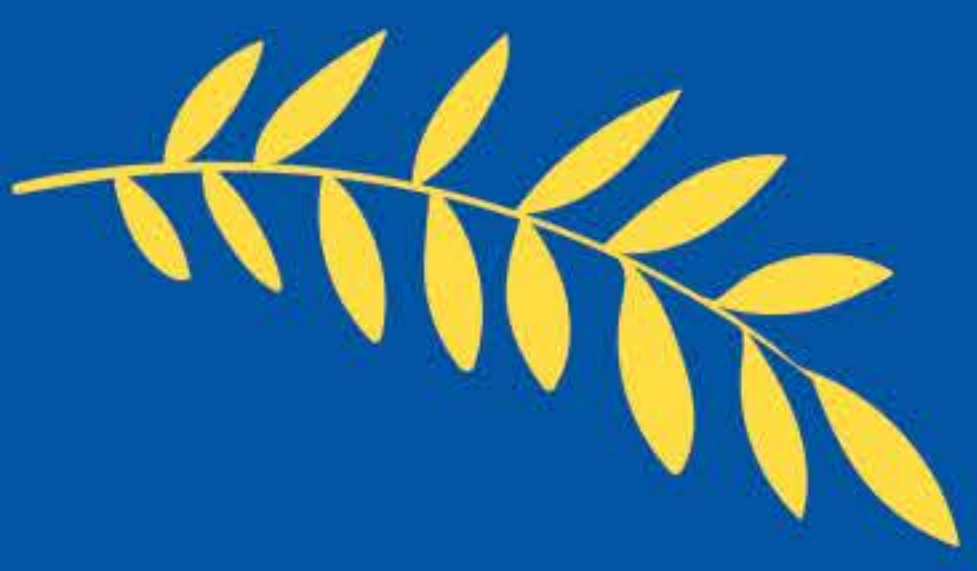

Isatis brand products have been produced under the strict tests of scientists and specialists in this field. By producing quality products in accordance with international standards, Isatis brand has been able to occupy a leading position in the global market in the industry of household and hotel detergents.

With the expansion of the hotel and tourism industry, among the items that are widely used in this industry are hotel toiletries. These products are disposable and are used for hotels, residential centers and even hospitals for personal hygiene. Today, many brands have started producing hotel and home hygiene products. Among these brands, Isatis brand can be mentioned.

Isatis products include liquid detergent, shampoos, surface and clothing cleaners, cosmetics such as creams and lotions, and other products. Due to its high quality, the products of this brand have quickly become popular among families and hoteliers.

The activities of Isatis brand are also valuable in order to protect the environment. Because the products of this brand are produced from natural materials compatible with the environment. Also, Isatis uses recyclable materials in its packaging design, which helps to preserve the environment.

Another prominent feature of Isatis is the remarkable performance of its products in cleaning hotel spaces. Isatis products help hoteliers to achieve their goal of providing suitable facilities to guests and their satisfaction by maintaining high hygiene standards.

One of the popular products of Isatis in hotels are surface and clothes cleaners. These cleaners have compounds that easily clean stains such as grease and paint from different surfaces and disinfect the space at the same time.

Isatis also produces products for cleaning toilets and bathrooms. These products have compounds that remove all stains and dirt from the place easily and make these places shiny and fragrant.
